

## Company Profile

**Mobile Vision** was founded in 1998. Since 2001, the goal is creation of concepts, licensing, developing, hosting, publishing and distribution of Mobile content and applications.

Mobile Vision has a large portfolio of java games, logos, monophonic ring tones, polyphonic ring tones, realtones, wallpapers and adult content.

Mobile Vision became one of the major players in Mobile Content,

Mobile Vision is the owner of the brand : **TheMobileGames**.

## Publishing

**TheMobileGames** is one of the leading mobile game publishers.

All the games supplied by Mobile Vision are published through the website [www.themobilegames.com](http://www.themobilegames.com) or on the wap portals of the mobile operators white labelled or under the TheMobileGames brand.

You can find our references further in this flyer.

Besides the own developed games, TheMobileGames has contracted the best game developers. More than 300 games are available on the portal.

Weekly the less successful games are replaced by new games.

This makes TheMobileGames a very attractive place for the customers to visit.

## Java Games • licencing

TheMobileGames specialises in figures based on Comic Books and television. Especially our newest license, **Kid Paddle**, will become a huge success. The first game was launched in September 2004. Also **Michel Vaillant**, and **Thorgal** are very well-known figures and the games are of high quality with nice graphics and great gameplay. 3 To 4 games will be developed yearly.
