

# FRAXXON

THE CLASSIC 2D SHOOT'EM UP IS BACK!

## Are you man enough to save the planet?

Protect the people of Earth, destroy everything you encounter and shoot your way to the next level in this arcade classic! You are Jake Striker, an officer of the Global Alliance and the only pilot left to defend the Earth. From your moon based outpost, you have just one chance to annihilate the incoming enemies, which speed towards the planet. Are you going to let this alien scum get away with this? If you survive the ferocious attacks and defeat the Fraxxon, you can return home with honour. If you fail, then 'home' is no longer a word in your vocabulary. Good luck!
